

PERSONAL INFORMATION

Sailesh Kumar Sen

31 Namena Road, Nabua, Suva (Fiji) 

+679 9938714 

graphicstanisha@gmail.com 

<https://saileshsen.wixsite.com/portfolio> 

I am a confident individual with a pleasant personality and an abundance of drive and ambition. I possess a clear ability to motivate not only myself but also others, and am capable of creating a vibrant atmosphere to deliver an exciting and unique service based on my several years of experience in communication graphic design, design for project publication and promotional materials management, in-depth branding skills, digital content management, illustrations, large format scanning, large format printing, pre-press production, web-base materials, archiving, supporting & supervising videography projects, social media materials, procurement process, problem solving skills, teaching and training experience.

WORK EXPERIENCE

01/03/2021 -
Ongoing

Graphic Design and Layout Specialist - Preferred Supplier

The Pacific Community (SPC), Suva (Fiji)

01/12/2008
–31/12/2019

Graphic Design and Document Production Officer

The Pacific Community (SPC), Suva (Fiji)

- Lead all aspects of specialised geoscience print and web graphic design and layout for SPC Geoscience Division (and other divisions on request) technical publications and visual materials.
- Advise technical staff and SPC partners on requirements for graphic design, large-scale scanning, large-scale printing, photography and videography.
- Liaise with printers and private sector industry on print production, and equipment maintenance.
- Provide photography services and preparation of photos for publication.
- Use and supervise use and maintenance of specialised digital reproduction equipment.
- Supervise work of graphics and multimedia assistant in photography and videography, graphic design, scanning and digital printing.

01/01/2014 –
31/12/2017

Graphic Design Course Facilitator

The University of the South Pacific (USP) - Pacific TAFE, Suva, (Fiji)

Design Short Courses in Graphic Designing and Teach the Students

- Certificate of Attainment in Graphic Design
- Certificate of Attainment in Graphic Design (Advance Level)

The USP graphics course was designed to introduce participant to the fundamentals of Graphic Designing with the use of the Adobe® CS Suite, which includes software like Photoshop, Illustrator and InDesign. Students will explore various methods of selecting image areas and will learn how to modify and manipulate selections, will also learn how to work with text, layers, and layer effects; how to adjust, retouch, and resize images; and how to prepare images for printing and the Web.

The course was intended for those who have an interest in graphic designing or wish to pursue a career in graphic designing. It was best suited for photographers, graphic designers and web designers.

01/01/1999 –
31/12/2007

Graphic Designer

Caines Photofast Services and Caines Scannertronics Ltd, Suva (Fiji)

- Graphic Designing
- Professional Photography
- Photo Restoration Expert
- Large Format Scanning
- Large Format Printing

EDUCATION AND TRAINING

01/01/2014 –
31/12/2017

Short Course Facilitator – Graphic Design

The University of the South Pacific (USP) - Pacific TAFE, Suva (Fiji)

Fundamentals of Graphic Designing with the use of the Adobe® CS Suite, which includes software like Photoshop, Illustrator and InDesign. Students will explore various methods of selecting image areas and will learn how to modify and manipulate selections, will also learn how to work with text, layers, and layer effects; how to adjust, retouch, and resize images; and how to prepare images for printing and the Web.

Using languages at work: Working for 26 Pacific Island countries at The Pacific Community gave me excellent opportunity to experience many different languages used in the Pacific together with their tradition and culture.

Communication skills Good communication skills gained through 20 years of work experience. The Pacific Community gave me excellent opportunity to work on Projects with experts and scientist from the Pacific together with Pacific Island's people.

Organisational / managerial skills Excellent organisational and managerial skills gained through my strong technical background and expertise.

Job-related skills Extensive and expert level skills gained through more than 20 years of work experience.

My Job Description at The Pacific Community (SPC)

Key Result Area 1

Perform all aspects of specialised geoscience graphic design and layout for SPC technical publications and visual material; supervise and mentor Graphic and Multimedia assistant in graphic work, scanning, printing, photography and videography

Operate latest desktop publishing, designing software, computers and other appropriate equipment for showing design concepts

Provide consultation and guidance for staff and customers and interpret and translate staff and customer instructions

Log jobs in Publications Database for tracking and reporting purposes

Prepare original graphics (includes photographs) for presentation in technical reports and publications and for web viewing

- Graphics workload is managed in conjunction with Graphics Assistant and free of bottlenecks
- Graphic design project objectives are achieved within budget and schedule
- Interpretations of staff instructions are expertly translated in software and paper and are accepted with minor amendment
- Jobs are logged in Publications Database Graphics Work Log and kept up-to-date
- Skill level in technical expertise is kept up to global standards
- Software and equipment are up-to-date and meet needs for best possible graphic results
- Original graphics are applicable to projects and programmes within the Division and are categorised and ready for use
- Standard of quality graphical work previously set is met and surpassed

Key Result Area 2

Consult, schedule and coordinate all graphic production, large-scale scanning, large-scale printing jobs, photography and videography work for Graphic and Production Supervisor and Graphic and Multimedia Assistant's schedule and act as liaison with printers and private sector industries in the production of completed designs

Provide consultation, guidance and support to staff and customers for graphic design

Translate verbal and abstract concepts into meaningful visual communication

Schedule requested work and log the work into the Publications Database for tracking and report purposes

- Consultations with staff and customers are held in a timely manner and
- Guidance and support is provided to staff and customers in a friendly, professional manner to meet their needs
- Verbal and written work requests are translated into meaningful visual communication according to requests and meet the needs of the staff and customer
- Jobs are scheduled and logged into the Publications Database so as to meet deadlines and prevent bottlenecks

Key Result Area 3

Perform and supervise use of all specialised equipment to include large-scale digital scanner, large-scale printer, laminator, cameras and manage the proper use and maintenance of specialised equipment for organisation use

Responsible for the specialised Large Format 54-inch Contex Magnum G600 Scanner; its Colour Management, Digital Manipulation if required and Colour Correction of Images using a variety of printing devices

Responsible for the specialised large-format HP Z5200 plotter printer; care, maintenance, and use

Manage and perform requests for large-format scanning, large printing and lamination

Perform photographic assignments for corporate purposes such as publications and for public relations

Responsible for storage and retrieval of work programme images taken with digital camera equipment belonging to the Division

- Specialised Large Format 54-inch Contex Magnum G600 Scanner, colour and data manipulation is maintained and handled with care
- Specialised large-format HP Z5200 Plotter Printer is maintained and handled with care
- Requests for services of large-format scanning, printing and lamination are performed and responded to in a timely manner with a high quality customer service
- Specialised equipment performs optimally at all times with calibration appointments performed according to schedule
- Images are well received and services as photographer are in constant demand
- Original stock photo collection is applicable to projects and programmes within the Division and covers a range of cultures, is categorised and ready for use

Key Result Area 4

Maintain productive working relationships with staff and customers of other Divisions, outside vendors and partners for all graphical production projects and work

- Relationships with staff, customers, partners and outside vendors are maintained in a professional manner
- Courtesy and timeliness are exercised when working with staff, customers, partners and outside vendors to ensure productivity, quality and customer satisfaction

Key Result Area 5

Manage maintenance and calibration of specialist printing and publishing equipment for organisation use

Manage maintenance of the large capacity colour printers, laminators, scanners and computers and other electronic equipment used within PLU

Ensuring that all specialist equipment are calibrated regularly and operational at all times or that downtimes are kept to a minimum

Ensure that the Graphic Assistant is trained and capable in the use and maintenance of the specialised equipment

Responsible for the specialised Large Format 54-inch Contex Magnum G600 Scanner; its Colour Management, Digital Manipulation if required and Colour Correction of Images using a variety of printing devices

Responsible for the specialised large-format HP Z5200 plotter printer; care and maintenance, use and calibration

Properly maintain camera equipment and handle with care

- Specialist equipment are performing optimally at all times
- All specialist equipment is scheduled for regular maintenance and calibration and are checked accordingly
- Specialist equipment downtimes are kept to a minimum
- Data back-up for scheduled equipment calibration to ensure optimum results
- Graphic assistant is trained and capable to use and maintain specialised equipment
- Camera and equipment are properly maintained and in good condition, ready for use

Jimmie Rodgers' Emerging Leader Award

Description of Nominee's Accomplishments

Use this section of the form if you wish to nominate an **individual SPC staff member** who has made outstanding contributions to the goals of SPC and development in the Pacific region.

Please describe how the nominee met one or more of the following criteria. For each example, please include specific accomplishments with concrete examples.

Where applicable, use data to quantify the impact or results.

Criteria

1. Approaches and resolves problems and challenges with a positive attitude and achieves positive results. *Be sure to describe the problem/goal and how it was solved/achieved* (100 words max.).

Sailesh Kumar Sen is a known problem-solver at SPC. Often sought to produce to urgent deadlines, he always delivers on-time with a positive attitude and smile. Sailesh completed 10 reports (French/English, average 60 pages each) from layout-to-print in just seven days for the French Polynesia EU-funded OCT DRR project. Working 24/7 with last-minute changes and communication delays, he produced professional quality reports, presented to EU on-time with high praise and recognition. Project Lead, Frederique Lehoux, said, "Thank you for the heroic work and flexibility. We never expected it would be so tedious. It is deeply appreciated by the entire team."

2. Frequently brought positive recognition to the organisation. *Describe how this was done, the action taken to achieve it, and the results (e.g. improvement in service delivery, improvement in agency or department performance, dramatic cost savings)* (100 words max.).

Sailesh's eight years with SOPAC/SPC have seen him responsible for hundreds of products spanning many GSD and SPC Corporate initiatives. His work has raised SPC's profile throughout the region and the world. He designed the World Bank (WB)-funded SPC Pacific Catastrophe Risk Assessment and Financing Initiative (PCRAFI) logo with positive results and feedback from partners. Samantha Cook, WB DRFI Specialist said, "Big vinaka vaka levu for the superb logo; a very positive response all over the world." Oliver Mahul, WB's DRFI Program Manager added, "Indeed! Million thanks, Sailesh for this inspiring logo, which features so well the Pacific region!"

<p>3. Successfully initiated and implemented an innovative idea that has changed lives and achieved dramatic results. <i>Describe the idea, the action taken to achieve it, and the results (e.g. improvement in service delivery, improvement in agency or department performance, dramatic cost savings) (100 words max.).</i></p>	<p>Sailesh has been an innovator and achiever from the start. His strong technical background and expertise advised the upgrade of graphic equipment and software, raising the standard of graphic design for SPC, resulting in an exponential demand for his services. Sailesh conceptualises and designs all education materials for SPC's contributions to the annual World Water Day event, which was expressly appreciated by EU this year. Sailesh designed the "Pasifika Duavata" map on tapa to commemorate the opening of the newly renovated GSD Publications and Library office, attended by the Director General who expressed his appreciation and admiration of the design.</p>
<p>4. Consistently achieved excellence in overall job performance that is 'above and beyond the call of duty'. <i>In your statement cite examples of consistently excellent performance and how it went beyond the regular duties of the job (100 words max.).</i></p>	<p>Sailesh has been rated "Outstanding" and "Exceeds" on every PDS during his time with SPC, averaging 300 jobs for the last five years. His skill set provides specialized large-scale scanning and printing services of technical and seismic maps, films and posters. His WaterMicro Symposium exhibit poster was voted best out of 89 international posters, raising SPC's profile. Tasked by DSM to revise and redesign 17 country brochures in five days, he produced all on-time. Hannah Lily, DSM Legal Advisor said, "He has been an absolute star working 24/7 so we have these lovely publications ready to take to Rarotonga tomorrow."</p>
<p>5. Demonstrated outstanding and inspirational leadership that dramatically improved employee morale and team spirit. <i>Describe the leadership techniques, citing specific examples of how and what was accomplished (100 words max.).</i></p>	<p>Sailesh leads by example, overseeing the production of all publications. Supervising the Assistant Graphic Artist, they are often called to support headquarters and other divisions, consistently delivering quality designs on-time. Sailesh was called to create 3-D illustrations of Lifuka Island with cross section and groundwater modelling diagrams. Since the onset of the annual SPC/UNISDR Pacific Platform for Disaster Risk Management, Sailesh designs and manages the production of all materials from invitation cards, nametags, programmes and conference books to posters, banners, pull-ups banners and signage, setting a standard of quality for SPC that is recognised by participants and throughout the Pacific.</p>

Sailesh Kumar Sen has been an invaluable asset for the Geoscience Division and SPC in the graphics arena. His expertise, quality of work and professionalism continue to raise the standard of SPC publications and has been recognised across many platforms at local, regional and international occasions, shining a positive light on SPC. He is the epitome of a leader that leads by example.

Sailesh was tasked by the Deep Sea Minerals (DSM) project to design and layout 17 country information brochures as part of its information-sharing initiative in Rarotonga. With only five days to produce an ISA information brochure, a Regulatory Framework for Deep Sea Minerals Book and updated designs for the country brochures, Sailesh completed the task and provided quality products with high praise and thanks from the DSM team, showing his professionalism and work ethics.

Sailesh was requested by the World Bank to provide advice and to design the logo for the Pacific Catastrophe Risk Assessment and Financing Initiative (PCRAFI) program. There are 15 Pacific Island countries involved in the PCRAFI program and Sailesh's logo is now recognised by all, reflecting SPC's high standards. It has been received with very positive feedback. These initiatives demonstrate his innovative spirit and work, and his strong leadership skills in the graphics arena.

His work for the French Polynesia project conducted under the European Union (EU)-funded Overseas Countries and Territories (OCT) Disaster Risk Reduction (DRR) project demonstrated his strong problem solving skills. This initiative focused on the quantification of the storm surge hazard in the Tuamotu Archipelago and the proposed cost-effective adaptation solutions. Sailesh was tasked to complete the layout and design of 10 reports, averaging 60-pages each in both French and English, in just seven days. Sailesh worked around the clock to produce professional quality reports on-time for presentation to the EU in Papeete, resulting in positive recognition for the project and SPC.

Over the course of his career with the organisation, he has developed his skills through his own volition and determination, with little opportunity to learn graphic design in the region. This year, Sailesh took it upon himself to upskill by seeking courses at USP and found that he was at the top of his field when he was requested by Fiji's top university to teach the advance graphics course instead. He is mentor to the Assistant Graphic Artist and to the rest of the Publications team in all fields of graphic design and was even instrumental in an award won by one of his students for their design. Sailesh continues to seek more opportunities to learn and hone his skills.

Sailesh always has a smile and a positive attitude. He is a pleasure to work with. He is accommodating and team-oriented and is a dependable and priceless resource for the GSD Division and SPC. I strongly recommend Sailesh Kumar Sen for the Jimmie Rodgers' Emerging Leader Award.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nicole Daniels', enclosed in a rectangular box.

Nicole Daniels
Publications Editor, GSD Division

Sailesh Kumar Sen has supported the Disaster Reduction Programme since his first year with the organisation. He is always a team player when it comes to new ideas, innovation and updating and always with a smile. He is accommodating and has been a dependable and priceless resource in graphic design.

Sailesh has designed and managed the production all graphic and layout designs for the annual Pacific Platform for Disaster Risk Management. A joint initiative with the United Nations Office for Disaster Risk Reduction (UNISDR), the platform is for Pacific Island countries and territories and attended by countries, partners and donors, civil society, private sector, as well as other stakeholders all over the Pacific. Sailesh's work on all designs – including invitation cards, nametags, timetables, programmes, templates, conference books, posters, banners, pull-ups banners, signage, promotional material, etc. – has set a standard of international class for SPC that is recognised by all participants and throughout the Pacific, raising the quality of SPC's visibility.

Sailesh provided advice and design support to the World Bank on the development of a logo for the Pacific Catastrophe Risk Assessment and Financing Initiative (PCRAFI) program. There are 15 Pacific Island countries involved in the PCRAFI program and Sailesh's logo now features throughout all. The design was received with great positive feedback. Samantha Cook, DRFI Specialist of the World Bank's Disaster Risk Financing and Insurance Program, FCMNB and GFDRR said, "My colleague, Olivier Mahul and I wanted to say a big vinaka vaka levu for the superb logo that you developed for the PCRAFI project. It gets a very positive response all over the world thanks to your hard work and we wanted to relay the message." Samantha Cook. Oliver Mahul, Program Manager of the World Bank's Disaster Risk Financing and Insurance Program, which is co-sponsored by the World Bank, the Global Facility for Disaster Reduction and Recovery (GFDRR), the Swiss State Secretariat for Economic Affairs (SECO), the Ministry of Finance of Japan, and the Ministry of Foreign Affairs of the Netherlands, added, "Indeed! Million thanks Sailesh for this inspiring logo, which features so well the Pacific region!"

He is accommodating and has been a dependable and priceless resource in graphic design and I highly recommend him for the Jimmie Rodgers' Emerging Leader Award.

Sincerely,

TO WHOM IT MAY CONCERN

REFERENCE FOR SAILESH KUMAR SEN

I have known Sailesh Kumar Sen since December 2007. He came highly recommended in terms of the quality of his production work at a photographic studio in town. He took a leap of faith to quit a full-time job and agree to fill in the suddenly vacant graphic arts officer post at the Pacific Islands Applied Geoscience Commission (SOPAC) at a critical time of the year. He was appointed to the full-time position after a competitive recruitment process in April 2008. He clearly demonstrated that he has the X-factor among his peers and continues to fully meet, even exceeds, his SOPAC colleagues' high expectation with the superior quality and promptness of his service.

This reference letter is written with the assumption that it will always be presented in the future with a portfolio of samples of work produced by Sailesh. The quality of his graphic arts work will speak for itself.

What I find most remarkable about Sailesh's rise in his field; is that he is self taught. As an individual he is driven and highly motivated to produce the best quality work on time; and he is justifiably very proud of his work. In December 2007 he asked for a chance to prove himself; and he took that chance and capitalised on it to the maximum. As his direct supervisor and the one he worked closest with in the period December 2007 to March 2013; I've never regretted giving him that chance.

I am fully confident that with continued application of his professional work ethics; his attitude to service; and the sterling standard of his graphic arts work, Sailesh will be among the most sought after among his peers in the Pacific.

With SOPAC having become a division of the Secretariat of Pacific Community (SPC) from 2011, his portfolio has expanded to include material produced for the French speaking territories. Sailesh has proved his mettle for graphic design of technical content. His disciplined attention to detail while working in one language has served him and the organisation well in the production of French-English text-intensive technical reports.

I wish Sailesh well in all his future endeavours; and am very pleased to have introduced such a rare talent into the regional service.

Dear VC & DVC

FYI- Small impact that CVCE made with its Certificate of Attainment course in Graphic Design (1 month long module).CVCE employs an industry experience trainer (Salesh Kumar) who works at SPC (Graphic Designer) and the training was managed by Dennis Sen who is CVCE's I.T Training Coordinator. CVCE introduced this training in 2014.

Kind Regards

Hasmukh

Bula Dennis,

My son Alexander Peckham attended the Certificate of attainment in graphic design CVCE offered in May 2014.

He participated in a competition for design of logo for Fiji basketball Oceania and his design was chosen. It was launched on 17/10/2014 by the Minister of Youth.

Thought I'd share his success story with you.

Are you planning on offering any more advanced courses in graphic design?

Await your response.

Vinaka

Dear Sir or Madam

General reference for Mr Sailesh Kumar Sen

I have worked with Mr Sen for over three years now at SOPAC. During this time, Mr Sen has provided extensive layout and typesetting services on products I have generated as part of my work here. Mr Sen's work has always been of excellent quality, produced in a timely way and with a genial manner. He have a critical eye for balance and structure and is extremely innovative in how he puts together concepts and images to create a professional and inspiring product. All products he has created for me have been excellent.

I wish to draw your attention to a most recent service that he performed, in organizing the presentation of a recent text book *Economics of Natural Resource and Environmental Project Management in the Pacific*. This highly technical text extends for 160 pages and includes a variety of complex and detailed figures. Not only did Mr Sen take the original extensive text and images from WORD and re-create them entirely to generate a consistent and easy to follow book, he also contributed to correcting editorial errors and creating ideas for how to make the book easier to read to the general public. He went out of his way to ensure that the images used in the book were of the most relevant and highest quality, accompanying me to take several photos himself to ensure the best possible images could be used. Several of the final photos in the book are his own.

I commend fully to you Mr Sen for any work that you may have concerning layout and typesetting. His commitment to his work is impressive and I have to say that he is personally a delight to be around. The quality of his work is beyond doubt. Should you choose to work with him at any point, I can only expect that you would be very content with him.

Please do contact me should you have any queries.

Yours sincerely

Reference for Sailesh Kumar Sen

TO WHOM IT MAY CONCERN

I have worked with Sailesh for the past 3 years when he joined the SOPAC Division of SPC as the Graphic Artist. I feel that Sailesh is highly qualified in the field of Graphics for several reasons.

Sailesh has been a tremendous asset to the SOPAC Division. He has been highly instrumental in contributing to the publication and publicity outputs for various water and sanitation projects which I coordinate including drinking water safety planning, water quality monitoring, water demand management and sanitation and hygiene. Some of his work examples on layout and design for publications targeted for my work include:

- Designing a Drinking Water Quality Monitoring Programme (2008)
- Water Quality Monitoring Case Example – RMI (2008)
- Poster designs of water quality and water safety (2008-2011)
- Banners for important events such as World Water Day and Global Handwashing day celebrations (2008-2011)
- World Water day awareness campaign resources, banners, posters and stickers (2011)

He consistently delivers high quality work products, meets or exceeds deadlines, and assists me to provide a professional finish to my various publications. When we were under an especially strict timeline on the 2011 World Water Day resource and awareness materials, he worked a lot of overtime to ensure us, the clients, were pleased.

Sailesh exemplifies good and professional character. He is trustworthy, reliable, very dependable, and I highly recommend him for a position at any relevant organisation.

If you have any questions, feel free to contact me at (679) 3381377 ext 261 or Tasleem@sopac.org.

Subject: RE: Best Poster - WaterMicro 2011 Symposium

Hi team,

Further to the trip report, I wanted to share that our Poster was voted as the Best Poster from a total of 89 international Posters presented during the symposium. It was great to have received this recognition at such a global gathering, enhancing the image of SOPAC Division, SPC. Certificate is attached.

Sailsh, thanks for the excellent work on the Poster layout, and Lala thanks for the continued support of PLU.

Poster was on "Managing the risks of pollution at catchment level through drinking water safety planning", a case example from Niue.

Cheers

Tasleem

Subject: Trip Report - WaterMicro 2011 Symposium

Dear all,

Please find my trip report to the Water Related Health Microbiology symposium held in Rotorua, New Zealand from the 19-23 Sept 2011 at the following link -
<http://dev.sopac.org.fj/TripReport/tripReport/show/950272>

Please let me know if you have any clarifications to make.

Best regards

Tasleem

TO WHOM IT MAY CONCERN

I hereby confirm that Sailesh Sen was contracted as a Consultant Facilitator on a part-time basis at the Pacific Technical and Further Education at University of the South Pacific from 2014 - 2017.

Sailesh was engaged due to his vast experience and expertise in Graphic Designing. He taught Graphic Design course (CEI54) which was part of the Diploma in Information Technology (Level 5) programme. Furthermore, he also took short courses at the Workforce Development Training Unit (WDTU). It was a great pleasure working with Sailesh as he delivered the training based on the current industry standards. Sailesh received high accolades from his students in terms of the delivery and content expertise.

Some of his core duties included facilitating the course, marking of assessments, taking remedial classes, prepare assessment tools and assessment criteria, updating MOODLE pages and Marksheet etc.

Sailesh is a highly professional, personable and reliable person; numerous requests made to him were always dealt with professionalism. He normally liaises with me or other senior staff for guidance during which I found him highly conversant and he has always contributed with concrete ideas. He has a friendly nature and will fit well into any organization.

Having said the above, I have no hesitation in recommending him to join any institutions or growth in his company. I wish him all the best for his future endeavours.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Dennis Sen', enclosed within a large, loopy oval shape.

Mr Dennis Sen
